

INFERTILITY

Hall A

FRIDAY, NOVEMBER 21, 2014

08:30-10:30	HOT TOPICS: WHAT IS THE ANSWER?
	Debate: The need for LH effects in antagonist protocols Yes: Dominique de Ziegler , France; No: Roy Homburg , Israel
	Endometriosis, COS response and ART outcome: Chii-Ruey Tzeng , Taiwan
	The thin endometrium: pathophysiology and treatment options: David Barad , USA
10:30-11:00	Coffee Break
11:00-12:45	LEADERS' VIEWS ON THE FUTURE: KEYNOTE LECTURES
	Opening remarks: Nguyen Viet Tien , Vietnam, <i>Honorary President, Vice Ministry of Health, Chairman of the Vietnam Association of Gynecology, Obstetrics & Family Planning</i> Zeev Shoham , Israel, <i>Congress Co-Chairperson</i>
	Artificial ovary: Why and how? Marie Madeleine Dolmans , Belgium
	Artificial gametes: Gerald Schatten , USA
	The evolving technology of ultrasound in medicine: Israel Shapiro , Israel
	Producing offspring from artificial gametes: Katsuhiko Hayashi , Japan
12:45-13:30	Lunch
13:30-15:30	FERTILITY PRESERVATION OF OOCYTES AND OVARIAN TISSUE: AN OPEN DISCUSSION ABOUT THE PROCEDURES
	New aspects in basic research of female fertility preservation: TBA
	Ovarian freezing and transplantation to preserve fertility in cancer patients provide fertility solutions and raise a lot of controversial issues in addition: Claus Yding Andersen , Denmark
	Ovarian tissue freezing and grafting: From cancer to benign diseases to social reasons: Jacques Donnez , Belgium
	Oocyte verification is the best method for fertility preservation: Masashigi Kuwayama , Japan
15:30-16:00	Coffee Break
16:00-18:00	PCOS
	Debate: With the use of the GnRH agonist trigger (in an antagonist protocol) there is no role for IVM in for the prevention of OHSS For the motion: Seang Lin Tan , Canada; Against the motion: Ho Manh Tuong , Vietnam
	Individual COS- What is it? Can we apply it? What are the benefits for your practice? Colin M Howles , Switzerland
	Treatment strategies for the infertile PCO patient: Shahar Kol , Israel

SATURDAY, NOVEMBER 22, 2014

08:30-10:30	PREIMPLANTATION GENETIC DIAGNOSIS & SCREENING – WHAT IS IT ALL ABOUT?
	State of the art of PGD and PGS: Andreas Schmutzler , Germany
	Does PGS improve IVF outcomes in older women? Simon Fishel , UK
	Time-lapse imaging: is this the future? Milton Leong , Hong Kong
	Oocyte- and patient-specific factors influencing embryo morphokinetics and implantation: Simon Fishel , UK
10:30-11:00	Coffee Break
11:00-13:00	PREPARING OVARIES FOR IVF IN WOMEN WITH LOW FUNCTIONAL OVARIAN RESERVE
	Improving the prognosis for poor responder patients Molecular changes in ovarian follicles with advancing female age: David Barad , USA
	Adjusting ovarian stimulation to patient age Is it worthwhile treating women above age 40? Norbert Gleicher , USA
	Luteal-phase ovarian stimulation in IVF: the present and the future: Yanping Kuang , China
	IVF outcome in extremely poor prognosis patients: Ariel Weissman , Israel
13:00-14:00	Lunch
14:00-16:00	UNEXPLAINED INFERTILITY: A CHALLENGING CONDITION
	Debate: Unexplained infertility is caused by early ovarian ageing Pro: Frank Broekmans , The Netherlands; Con: Salim Daya , Canada
	Debate: COH vs. minimal stimulation: safe stimulation Moderator: John Yovich , Australia
	Minimal stimulation completely removes the risk of OHSS and has other advantages: Daniel Bodri , Japan Smart COH can avoid OHSS: Frank Broekmans , The Netherlands
16:00-16:30	Coffee Break
16:30-18:30	ADJUVANTS FOR POOR-PROGNOSIS PATIENTS
	Debate: The re-growth of growth hormones in fertility treatment For: John Yovich , Australia; Against: Roy Homburg , Israel
	Debate: Does dehydroepiandrosterone (DHEA) supplementation really affect IVF-ICSI outcome in women with poor ovarian reserve? For: Norbert Gleicher , USA; Against: Salim Daya , Canada

GYNECOLOGY

Hall B

FRIDAY, NOVEMBER 21, 2014

08:30-10:30	UTERINE FIBROIDS: HOW DO WE DEAL WITH THEM? Debate: Myomas Progesterone receptor modulation in Fibroids: mode of action: Christian Egarter , Austria The place of medical therapy and particularly UPA: Jacques Donnez , Belgium The place of surgery: Chen Goldchmit , Israel High intensity focused ultrasound in treating uterine fibroids: Vincent Y.T. Cheung , Hong Kong
10:30-11:00	Coffee Break
11:00-12:45	LEADERS' VIEWS ON THE FUTURE: KEYNOTE LECTURES (HALL A) Opening remarks: Nguyen Viet Tien , Vietnam, <i>Honorary President, Vice Ministry of Health, Chairman of the Vietnam Association of Gynecology, Obstetrics & Family Planning</i> Zeev Shoham , Israel, <i>Congress Co-Chairperson</i> Artificial ovary: Why and how? Marie Madeleine Dolmans , Belgium Artificial gametes: Gerald Schatten , USA The evolving technology of ultrasound in medicine: Israel Shapiro , Israel Producing offspring from artificial gametes: Katsuhiko Hayashi , Japan
12:45-13:30	Lunch
13:30-14:50	CERVICAL CANCER AND HUMAN PAPILLOMA VIRUS (HPV): DOES VACCINATION MARK THE END OF CERVICAL CANCER? HOW DO THE PATIENTS NEED TO BE SCREENED? Debate: Should developing countries implement cervical screenings programs or preventive vaccination programs? Pro screening: Lee Shulman , USA; Pro vaccination: Kevin Holcomb , USA Low cost colposcopy: How this fits into the screening process? Elisabeth Wikström Shemer , Sweden
14:50-15:30	LAPAROSCOPIC SURGICAL TREATMENT OF MYOMA: HOW CAREFUL DO WE NEED TO BE? The risk of uterine morcellation needs to be considered: A safety warning Case presentation and discussion with the audience: Kevin Holcomb , USA Comments: Ofer Gemer , Israel; Chen Goldchmit , Israel
15:30-16:00	Coffee Break
16:00-17:00	NEW TECHNOLOGIES: DO WE REALLY NEED THEM? Modern Gyneco-oncological approach Staging of gynecological cancer using the sentile lymph node technique? Alon Ben-Arie , Israel Robotic single-port surgery: Tips and tricks: Kevin Holcomb , USA Internet laparoscopy training: Is it so simple and cost saving? Chen Goldchmit , Israel

SATURDAY, NOVEMBER 22, 2014

08:30-10:30	DEBATE: DEEP ENDOMETRIOSIS There is no agreement on the optimal diagnosis of this special types of endometriosis; therefore, the question about which treatment offers longstanding remission for chronic pelvic pain is still being debated Medical therapy: Sun Wei Guo , China; Surgery: Jacques Donnez , Belgium WOMEN IN MENOPAUSE: WHERE DO WE STAND TODAY? Debate: Menopausal estrogen therapy Should menopause be defined as a pathological or physical state?: Zeev Shoham , Israel The evidence surrounding the use of botanical interventions in menopause: Lee Shulman , USA Oral vs. Transdermal: John Studd , UK
10:30-11:00	Coffee Break
11:00-13:00	SESSION 6B: CONTRACEPTION: STUMP THE EXPERT Progestogens and estrogens – have we found the ultimate combination? Christian Egarter , Austria Debate: Is the progestogen-only formulation better than the combined formulation in oral contraception Yes: Amos Ber , Israel; No: Lee Shulman , USA Oral contraceptives and folate: Towards a new era in contraception and the prevention of birth defects: Juan Acuna , USA
13:00-14:00	Lunch
14:00-16:00	55th ANNIVERSARY OF THE PILL: HOW SAFE IS IT? VTE and oral contraception: what we should know: Adolf Schindler , Germany New medicated IUD: a real challenge for young women: Amos Ber , Israel GnRH antagonist: the ultimate method for emergency contraception: Zeev Shoham , Israel Panel discussion: Juan Acuna , USA; Amos Ber , Israel; Christian Egarter , Austria; Adolf Schindler , Germany; Lee Shulman , USA Panel Questions: • New generation pills- are they safe? • Non-stop oral, vaginal and dermal contraception? • What is preferred for emergency contraception: ulipristal, levonorgestrel, IUD, or GnRH antagonist? • Should OC be continued to age 50 and then replaced with HT? • How to deal with irregular/unacceptable bleeding in women using OC – treat and continue, investigate or change the dose? • Where is the androgen in the modern pill?
16:00-16:30	Coffee Break
16:30-18:30	RECURRENT PREGNANCY LOSS Overview of recurrent pregnancy loss: Salim Daya , Canada Progestogens for prevention/treatment of recurrent pregnancy loss: Adolf Schindler , Germany TBA: Boonsri Chanrachakul , Thailand
18:00-18:30	SEVERE MENSTRUAL BLEEDING What should be the treatment: Amos Ber , Israel

ULTRASOUND

Hall C

FRIDAY, NOVEMBER 21, 2014

08:30-10:30	EARLY SCREENING OF THE FETUS (PART I)
	The very early anomaly scan: Ruven Achiron , Israel
	How non-invasive prenatal testing is changing diagnostic algorithms for fetal aneuploidies and genetic disorders: Ashok Khurana , India
	From Fetopathology to genes: Ruven Achiron , Israel
	Case presentation: Shlomo Lipitz , Israel
10:30-11:00	<i>Coffee Break</i>
11:00-12:45	LEADERS' VIEWS ON THE FUTURE: KEYNOTE LECTURES (HALL A)
	Opening remarks:
	Nguyen Viet Tien , Vietnam, <i>Honorary President, Vice Ministry of Health, Chairman of the Vietnam Association of Gynecology, Obstetrics & Family Planning</i>
	Zeev Shoham , Israel, <i>Congress Co-Chairperson</i>
	Artificial ovary: Why and how? Marie Madeleine Dolmans , Belgium
	Artificial gametes: Gerald Schatten , USA
	The evolving technology of ultrasound in medicine: Israel Shapiro , Israel
	Producing offspring from artificial gametes: Katsuhiko Hayashi , Japan
12:45-13:30	<i>Lunch</i>
13:30-15:30	EARLY SCREENING OF THE FETUS (PART II)
	NT how should it be done? And what should be added: Israel Shapiro , Israel
	Can NIPT serve as the first line of choice in 1st trimester screening for chromosomal anomalies?: Yuval Yaron , Israel
	Fetal palate evaluation: 2D or 3D ultrasound evaluation: Ashok Khurana , India
	Case presentation: Leona Poon , UK
15:30-16:00	<i>Coffee Break</i>
16:00-18:00	INVASIVE PROCEDURES (PART I)
	Principle and pitfalls of ultrasound guidance for amniocentesis, CVS and fetal reduction: Israel Shapiro , Israel
	Fetal posterior urethral valve: Small lesion big consequences: Tuangsit Wataganara , Thailand
	Monochorionic twins: diagnosis and treatment of specific complications (TTTS, sIUGR): Shlomo Lipitz , Israel
	Case presentation: The bladder and cloacal exstrophy: Kim Loan Ngo Thi , Vietnam

SATURDAY, NOVEMBER 22, 2014

08:30-09:30	INVASIVE PROCEDURES (PART II)
	Fetal tumors: In utero treatment dilemmas: fetal sclerotherapy in lymphangioma.
	EXIT in fetal neck tumor, fetal blood transfusion in anemic fetus from vascular tumor, chorioangioma: Tuangsit Wataganara , Thailand
	Fetal hydrothorax - with and without other chest lesions: diagnosis and treatment: Shlomo Lipitz , Israel
09:30-10:30	INNOVATIONS USING ULTRASOUND TECHNOLOGY
	The use of ultrasound and other markers for early detection of preeclampsia: Leona Poon , UK
	Case presentation: The thin fetus: ultrasound and genetics. Test yourself: Israel Shapiro , Israel
	Case presentation: Tuangsit Wataganara , Thailand
10:30-11:00	<i>Coffee Break</i>
11:00-13:00	THE FETAL CARDIAC SYSTEM
	Basic fetal echocardiography: The basic views: Israel Shapiro , Israel
	New frontiers in fetocardiovascular imaging: Ruven Achiron , Israel
	Early fetal cardiac evaluation: false reassurances, false positives and facts: Ashok Khurana , India
	Case presentation: The "strange eye" panel discussion and expert opinion: Israel Shapiro , Israel
13:00-14:00	<i>Lunch</i>
14:00-16:00	HOT TOPICS IN ULTRASOUND SCREENING
	Avoid mistakes: Pitfalls and artifacts in 2D and 3D ultrasound including a discussion on 3-D ultrasound: Gimmick or breakthrough? Israel Shapiro , Israel
	Debate: Universal screening for preterm delivery is by US
	No: George Daskalakis , Greece; Yes: Leona Poon , UK
	Diagnosis of central nervous system defects: from US to MRI: Nguyen To HA , Vietnam
	The use of sonographic imaging in infertile patients: Aris Antsaklis , Greece
16:00-16:30	<i>Coffee Break</i>
16:30-18:30	GYNECO-ONCOLOGY SECTION: DETECTION OF VARIOUS MASS IN THE PELVIS
	The role of new ultrasound techniques in the assessment of gynecologic oncology patients: George Daskalakis , Greece
	The pelvis: various pathological structure: Zvi Appelman , Israel
	Panel discussion
	Panel topics:
	• Can we accurately detect ovarian malignancies by ultrasound?
	• How to assess women presenting with an adnexal mass
	• How to scan endometrial cancer practical tips and case presentations
	• Ovarian cancer staging: the role of US
